OBJECTIVE Seeking employment positions in graphic arts and web design. I wish to apply my skills and design abilities to create new and exciting experiences for print, media, and the web.

- Creative, open-minded individual
- Good reputation with former employers
- Excellent computer skills
- Complete familiarity and understanding of Mac OS X and Microsoft Windows
- Experienced in Adobe Photoshop, Flash, Illustrator, InDesign, QuarkXpress, Dreamweaver and HTML/CSS coding languages
- Experience in creating digital artwork, logo design, web design, web banners, web advertisements, animated images, Flash animation, Flash multimedia, CD/DVD covers, company fliers, Acrobat PDF documents and other promotional materials.
- Highly skilled with traditional and digital freehand illustration
- Able to troubleshoot and repair any hardware or software related computer problem on any Windows or Macintosh-based computer
- Capable of installing hardware and software on any Macintosh or Windows-based computer
- Patient, willing to learn

EDUCATION

Class of 2005 – East Brunswick Vocational & Technical High School
2005 – 2006 – The High-Tech Institute - Graphic Design & Animation
Certificate Program

EXPERIENCE

HCD Research, NJ

www.mediacurves.com

Graphic Artist / Web Editor

August 2008 – October 2008

- Worked with a team to manage and create content for MediaCurves.com, duties included designing graphics, editing videos using Sony Vegas Pro, creating Flash presentations, uploading web

pages, creating and managing web page content using Dreamweaver, scanning in and retouching documents using Photoshop, converting various image and video files.

Seven02 Design, CA
www.oneorabunch.com

Web Designer

2008

- Created a Flash-based page based on the original design and layout from the client, this allows a user to interact with the product page and view the different colors and styles that the company has to offer. Additionally the other pages were created, including a buy page, using HTML and CSS web standards.

Network Datacom System Solutions, NJ

Web Designer

2008

- Worked with the company to create a dynamic and easy-to-navigate webpage. The webpage displays all of the services that the company has to offer as well as updated news, company locations, and contact information complete with online maps.

Harry Redlich, Online Client

Graphic Art and Logo Designer

2007

- Designed and refined artwork and logos for a line of clothing based on existing concepts and ideas. Worked closely with the client to make sure everything was finished and properly produced.

TerraCycle Inc, NJ

Flash Animator

2007

- Worked as an intern with TerraCycle Inc. to produce and create several animated cartoon shorts for their company to promote their products.

Advanced Autocare, KY

Graphic Artist

2007

- Touched up, digitized, and refined an existing logo for display on the company's web page. Logo will also be used for future purposes.

Ouibox.com, KY

Graphic Artist and Web designer

2006

- Designed and created the company logo that is featured on its web site. Worked with the company and its creator to help maintain a streamlined look and feel throughout the site. Created and helped design additional logos, images, and buttons to be used for promotional purposes.
